

Our ecological promise

Dear clients,

We are happy to welcome you to our hotel La Pérouse in Nantes.

**Since its creation, we have prioritised our awareness and respect
for the environment.**

**For us, for you and for future generations, we do everything we can
to minimize the impact of our activity on the environment.**

WATER & ENERGY :

- ✓ Divisional water and electricity meters have been put in place to facilitate a more precise monitoring of consumption;
- ✓ Every month, data from our water and electricity meters are analysed to help manage any inconsistencies that could help identify leaks or other potential issues;
- ✓ All taps and shower heads are equipped with water economizers/aerators so as not to exhaust the resource;
- ✓ During their stay, our guests are invited, through information supports installed in the bathroom, to assist with our water conservation efforts;
- ✓ Bed linen is only changed after 2 consecutive nights and/or on request;
- ✓ All our toilets are equipped with differentiated flow flushes (3L or 6L flow rates);
- ✓ All leaks reported by our customers at reception systematically trigger a call for a technician;
- ✓ Our hydraulic system made up of 5 pumps has a hot water loop in order to streamline the delivery of water to all floors without wasting energy and water;
- ✓ The property has just 11 bathtubs spread across 46 rooms;
- ✓ More than 70% of our lighting is equipped with low-consumption LED bulbs;
- ✓ All our rooms have an Economy Box system to ensure automatic switching off of the light in the absence of the guest;
- ✓ A contact sensor located on each window detects when it is opened and automatically cuts off the reversible air conditioning system;
- ✓ 100% of our rooms have 3 cm thick double glazing;
- ✓ Communal passage areas (customer WC, trash room, corridors) are all equipped with timers for lighting;
- ✓ All our equipment with a heat exchanger (radiators, fan coils, refrigerators, etc.) benefits from preventive maintenance and regular monitoring;
- ✓ Our establishment, classified as a Nantes architectural monument since 2011, was designed on the principles of space optimization, thus limiting its consumption per m²;

WASTE MANAGEMENT :

- ✓ Our team is aware of selective sorting and routinely separates waste according to specific bins (household waste / paper, magazines / plastics / cardboard / glasses / ink cartridges / batteries);

- ✓ During delivery, some of our suppliers are asked to collect their old or current packaging (Kerbio crates, France Boisson returnable bottles);
- ✓ Some waste is returned directly to the supplier (used Nespresso capsules, O'Bocal jars, etc.);

LOCAL PRODUCTS :

Our “Breakfast” buffet offers many products locally sourced from our region and directly from Eco-Responsible producers (numerous partnerships with artisan members of Saveurs DétonNantes, Beillevaire, Kerbio, La Boulangerie, Cafés Richard, Berjac, ...)

ALWAYS MORE :

We undertake a more systematic search, whenever possible, with a preference to suppliers who have developed an effective environmental policy, prioritising their proximity as well as the recycling of items;

The hotel is 100% non-smoking;

Our receptionists systematically offer the sending of invoices, or other administrative documents, by email, in order to limit the use of paper;

Upon receipt, the printed paper has a second life by being used as scrap paper;

Our toilets are equipped with non-chlorinated toilet paper;

Our showers are equipped with 2-in-1 liquid soap dispensers limiting the consumption of individual shower gel and shampoo;

In the bathroom, all our cups were replaced with glasses washed directly on site;

In order to limit waste, particularly of bread and pastries, we optimize the quantities ordered using our breakfast collection rate;

Our “Breakfast” service is made up of a buffet available in self-service but also an “à la carte” service in order to limit the waste of certain fragile and/or difficult to quantify products (compote, hot preparations, salad fruit, etc.);

We mainly use organic cleaning products (partnership: GAMA 29) and no pesticides;

Upcycled products are offered for sale such as cotton pads, handkerchiefs, bags, or even toothbrushes (partnerships: KUFU and BOO COMPAGNY) to raise awareness among our customers wishing to join the “Zero Waste” generation;

- ✓ In the bathroom, hygiene bags invite our customers not to throw anything other than toilet paper in the toilet;
- ✓ The hotel benefits from a mobility plan set up by Nantes Métropole and thus encourages

- ✓ local staff to use public transport by reducing their travel costs by -50%;
- ✓ Ideally located in the heart of the Nantes public transport network, our hotel offers the sale of TAN tickets (charged directly on invoice) thus encouraging and enabling our guests to “abandon” their vehicle in the parking lot for the duration of a stay helping to reduce emission contributions;
- ✓ Our Director, Martha MEDOZA, is a member of the Hotel Club and raises awareness among her peers about Sustainable Development;

Thank you for supporting us in our approach during your stay!

In order to realize our commitment and engage in a process of continuous improvement, we have obtained the Green Key 2018 label.

Le 1^{er} label environnemental
international pour
l'hébergement
touristique et la restauration
www.laclefverte.org

The Clef Verte label distinguishes tourist accommodation and restaurants engaged in a voluntary, efficient and dynamic environmental approach. The label is awarded annually by an independent jury made up of tourism and environmental experts and professionals.
